More classes and variety will be added as they fill up. Have you experienced a great class or trainer somewhere else? Tell us about it.

Class Descriptions

The Lifezone360 Queenax Cross Trainer is the epi-center of most of our classes. Come experience this highly versatile unit and discover what everyone is buzzing about.

Bootcamp: An all-round calorie burn and muscle toning workout designed to get your energy soaring for the day. *A friendly personal trainer will be there with you every step of the way to motivate you, answer questions and demonstrate proper technique. As with any LZ360 workout, you'll have a heart-rate monitoring wearable on to make sure you're getting the optimal workout regardless of your current fitness level.*

Warrior Workout: *Designed by our own director Andy Voris, this workout takes key elements of a professional athlete's workout and puts it in a "weekend warrior" package. A fun dynamic warmup progresses to 6 minute intervals of activities with sleds, kettlebells, rowers and box jumps. Just a few weeks of this class will have you looking and feeling 10 years younger.*

Queenax Cross Train: If you've heard of TRX, Bungee and Suspension Training, the LZ360 Queenax machine brings it all into one dynamic session. A great workout for friends to do together, you'll find yourself smiling (even laughing) and sweating the time away.

Power Hour: This workout is for individuals who want to build strength and muscle. *Get ready for a tough hour designed to Power you up! The session includes lots of power generation and explosive movement routines blended with old school strength training. Ideal for those who have been working out for a while.*

Sports Cardio: *LZ360 is a sports academy so it's only fair that we offer a workout that integrates sports into the process. Run football passing patterns, challenge yourself with agility drills and learn how to use power bands at home or on the road. If you miss the old days of being a star athlete or like the adrenaline that comes with playing sports, this is a workout you'll love.*

Own Zone: *Designed right here at LZ360, this workout is all about getting your heart rate into the optimal zone for health, fitness and fat burning. As with any workout here, you'll have a heart rate monitoring wearable and watch your heart rate on the screen as you ramp up and down on your intensity. You'll never get bored because your trainer will mix things up every time. You'll rotate through using dumbbells, barbells, bands, machine circuits and our very own Queenax Suspension machine. Watch things like fat, muffin tops and cellulite burn away just 6 weeks into this program.*
